

About ASC

ASC Building Materials is a global industry leader of roof coatings and roofing systems. ASC systems are certified and tested to meet the most rigorous industry standards. We stand firmly behind the products we manufacture and solidify long-term partnerships with contractors, building owners, and distributors.

ASC APP TORCH

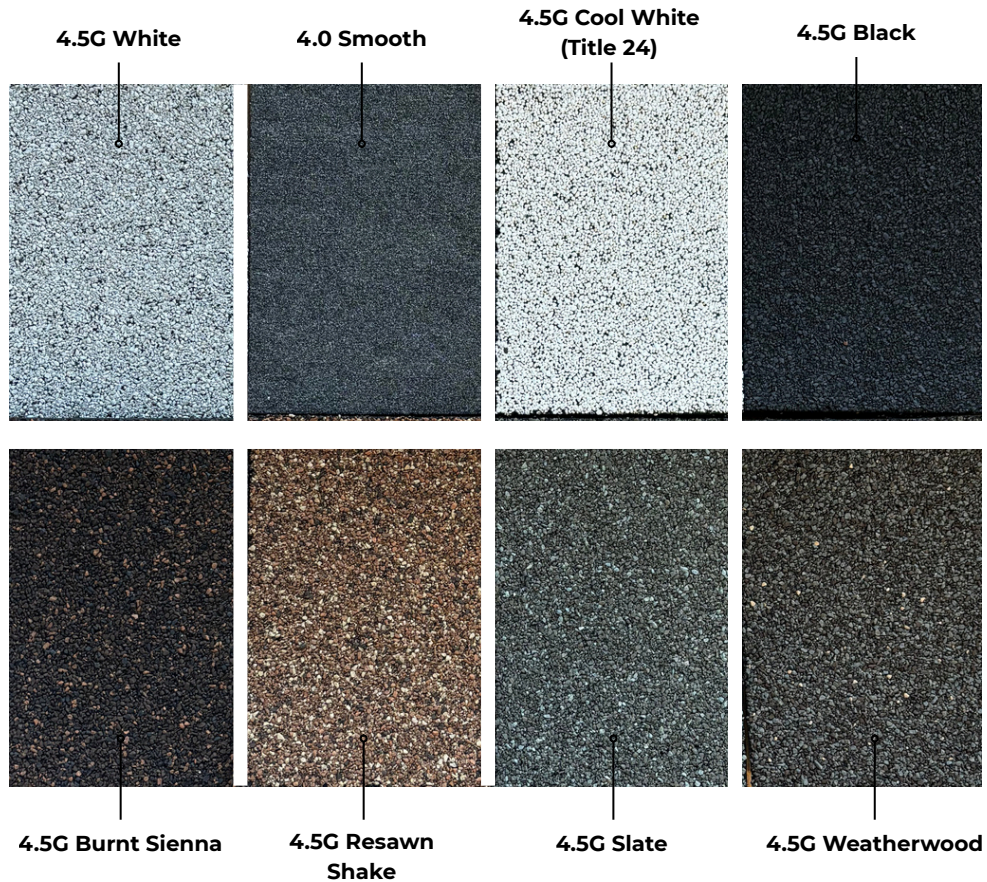

ASC APP Product Descriptions:

ASC APP Torch is a polyester reinforced APP modified bitumen roofing product specially designed for heat-welded applications. These products provide exceptionally durable roofing systems which are easy to install and will provide long term protection against weathering.
